

STREETS MADE FOR WHEELS

The Appropriations By Wards A Bar to Proper Improvements.

WHEELMEN MAKE THEIR VOTES FELT

New Things in Wheel Oceans for the Season 1898—Lullate Your Wheel According to Your Weight—A Chapter on Gears.

"What is being done by the Richmond League of Wheelmen?"

On Monday February 7th the new budget for 1898 will come up before the Common Council and the wheelmen should have some representative man on the ground to see if anything can be done for the long suffering riders and when the allotment for streets is made and before it is decided up into the word amounts, there should be set aside to be spent under the advice of the City Engineer a sum, say \$1,000 for general repairs where ever most needed, this would be about \$20 for each ward and less than 50 cents to each cycle rider in Richmond. Other cities the size of Richmond think nothing of spending \$10,000 to \$20,000 on paths and streets for the use of the fast increasing number of wheelmen.

"NEW IDEA" DOUBLE-CYLINDER BICYCLE FOOT PUMP.

If the cyclists want good streets they will have to work for them, as for anything else, and make their numbers tell, as they can control nearly every ward in the city with their votes. If they will work together as they should do.

A LIGHT CHAINLESS.

One of the reasons why those who do not take kindly to chainless bicycles condemn that form of construction is based upon the assumption that it is impossible, with due regard for safety and rigidity, to get the weight below or equal to that of chain-driven machines. This, however, is an ordinary-sized pedal which is an inventor in Albany, N. Y., who has just exhaustively and satisfactorily tested a chainless pattern which weighs only 22 1/2 pounds, has changeable gear, and is believed to possess many advantages not hitherto embodied in the structures with which the trade has been made acquainted.

COMFORT IN ACCESSORIES.

An invention, essentially Parisienne, is the foot-warmer with fudge & double 32 Rue street, Mainz, Paris. Owing to the excellence of the wood pavements in Paris bicycles are ridden there even in the depth of winter, the only discomfort being, of course, cold feet. There, however, is an ordinary-sized pedal which is an inventor in Albany, N. Y., who has just exhaustively and satisfactorily tested a chainless pattern which weighs only 22 1/2 pounds, has changeable gear, and is believed to possess many advantages not hitherto embodied in the structures with which the trade has been made acquainted.

This cut shows one of the new pumps on the market for 1898, it has two cylinders with stirrup between them—you have only to press down with the foot. No scooping whatever, the spring on inside brings it up. The weight of the person inflates the tire to any degree of hardness desired and if a person weighs 150 pounds, his tire would be inflated to about 90 pounds, one weighing 200 pounds to about 90 pounds. Each person can inflate the tire according to their own weight as the weight of the rider should govern how much his tire should be inflated.

WEIGHTS OF WHEELS.

A prominent English manufacturer states that the weight of the average English roadster is 25 pounds. The American wheels which give perfect satisfaction for road use weigh about 24 pounds. For road racing they run from 22 to 23 1/2, according to equipments the weight being governed by the tire and the rider. The lightest wheels run from 18 to 21 pounds, but the question of weight does not often come up, since the passing in 95 and 94 of the very light wheel which was in the rapid shop most of the time or sent back to the factory to be replaced with a new frame. On the other hand several standard makes of wheels in 1897 went to the other extreme of putting out wheels that weighed 25 pounds and over on the scales, although the riders thought they were using 22 pound wheels as that was the weight given by the makers in their catalogues.

A NEEDED REST.

Michael willingly surrenders several thousands of dollars weekly for the next three months to take a needed rest. Michael has received many offers to go on the stage and to ride exhibitions at many of the indoor tracks round the country. Michael always carries a contempt in his mouth during a contest. Taylor, the Frenchman, has a pebble. This small stone was picked up on the beach in France and has been in Taylor's mouth in every contest he has ridden. Outside of its qualities as a preventive of toothache, Taylor looks upon the pebble as somewhat of a mascot or lucky stone. Tossing it round and round in his mouth, he also finds that it relieves his mind of that intense strain that comes to a rider in following the rear wheel of a tandem for an hour.

Frenchman, made \$12,500, and Bourillon cleared \$15,000. Michael cleared twice as much as his rivals, his contests being for much larger purses and fewer in numbers. Michael won thirteen races and took the loser's end in one purse only. He rode thirty exhibitions.

GEARS IN 1898.

Paris many catchy novelties are seen at the cycle show now in progress. One is struck by the immense sizes of the front sprocket wheels employed for bicycles by some makers. Grosset (29 rue Simon-le-Franc, Paris) shows machines with sprocket wheels up to about two feet in diameter. In another machine there appears to be very little difference between the sizes of the sprockets and the road wheels.

Gears for the coming season on the racing path will be greatly increased. American racing men are following the example of the foreigners, who use much larger gears than have ever been tried in this country. The ease with which Gougoltz, the Frenchman sprinted with a 50 gear, surprised the men he defeated. His long sprints fooled the Americans, and his ability to win after these long sprints mystified them still more.

Gears for regular use this season on gentlemen's wheels will be about 24.5, 24 1/2, or 24 and 1/2 for those who do not care for fast riding while the sprinter on the road will use 23 1/2 to 24 1/2.

With the latest improvements, 24 gear

REV. MR. SWEENEY HERE

SAYS HE CAME AS PASTOR UPON CERTAIN CONDITIONS.

If Matters Prove Mutually Satisfactory He Will Remain in Charge of the Seventh-Street Church.

Rev. T. Sweeney arrived in the city last night at 7 o'clock from Buffalo, N. Y., where he has been holding a series of special meetings, and is the guest of Dr. George A. Taber, at No. 116 West Grace street. Mr. Sweeney has had great success in the meetings in Buffalo, and many united themselves with the Church there as a result of his preaching.

Several of the prominent members of the Seventh Street Christian church, to which Mr. Sweeney was recently called as pastor, called upon him last night at Dr. Taber's residence, and spent an hour with him in an informal way. The well known preacher is in fine health, and spirits, and looked none the worse for his long journey. Mrs. Sweeney was not with him; but she is expected here in about ten days.

WILL PREACH TO-DAY.

Mr. Sweeney will fill the pulpit of the Seventh Street church to-day and to-night at the usual hours. He will doubtless be greeted by large audiences, as he is an eloquent and interesting speaker, and has preached in Richmond to large and appreciative audiences upon several occasions before.

On to-morrow or Tuesday he will go to Augusta, Ga., to hold a series of special meetings after which he will return to Richmond and take charge of the church here.

ONLY TEMPORARY.

Mr. Sweeney has not accepted the call to the Seventh Street church here permanently as yet. In a conversation last night he said: "I came to Richmond with the understanding that the arrangement was to be temporary, and that I was to supply the pulpit and pastorate here for two or three months, after which if matters were mutually satisfactory, I would remain as the regular pastor. I expect to go to Augusta, Ga., the early part of the week, to hold special meetings, after which I shall return to Richmond and take charge of the pastorate here conditionally. After I have been here awhile, I shall be better able to judge whether I shall become the permanent pastor of the church. I hope that will be the result of my temporary stay. My family will join me here in a week or so."

DEMANDS OF AGRARIANS.

The Concessions Said to Be a Trick of the Government.

BERLIN, Feb. 5.—The freedom which the Reichstag and the Prussian Diet conceded this week to the Agrarians, who formulated numerous wishes and complaints, is significant. The Minister of Agriculture, Baron von Hammerstein-Loxten, promised the government would grant as many of their demands as possible.

At the moment he was making this declaration, measures were preparing to stop the importation of American fruit, and the decree in that connection had already been issued.

The entire Liberal press openly disapproved of the policy, and asserts it was a government trick to obtain the vote of the Agrarians for Emperor William's naval bill.

The leading commercial journals point to the ill-will and indignation such measures are bound to produce in America, and to the futility of prohibiting the importation of an article which Germany does not produce with sufficiency. The newspapers claim the only result would be that fruit would be imported from the south of Europe at a higher cost than is now being paid for American fruit.

Several of the newspapers express the opinion that the decree will not be permanent and that it was only intended as a temporary act of retaliation for American treatment of German sugar.

Inquiries made at the Foreign Office and at the Prussian Agricultural Department, however, shows the steps taken to be only for-runners of others of more importance, the government having concluded that something must be done to remedy the injury done by the tariff for retaliation on the United States.

There was an exemplification in the Reichstag, on Tuesday, when Dr. Hahn, a friend of Prince Bismarck, demanded the prohibition of American goods claiming the imports had increased in 1897 to \$2,700,000 marks and that something must be done "to show those over-bearing Americans that an energetic German government exists."

The feeling of the Cabinet is unfavorable to the declaration made yesterday by the Minister of Agriculture, Baron von Hammerstein-Loxten, in the Diet, who declared that American horses developed influenza in the United States.

It is said Prince Maximilian, of Baden, who has hitherto flatly refused to marry, will shortly be betrothed to Princess Pauline of Wurttemberg, in whose honor Emperor Joseph gave a big court ball a week ago.

NEWPORT NEWS GAS WORKS.

The Inauguration of the Plant Celebrated with an Entertainment.

NEWPORT NEWS, VA., Feb. 5.—Special.—The main of the Newport News Gas Works were charged with gas yesterday evening at 8 o'clock. The officers gave an entertainment at the office of the company last night to the officials of the city, and a number of prominent gentlemen. Among the Richmond people present were Mr. W. J. Payne, president of the Board of Aldermen, Mr. A. Catlin, and General Consul Samuel Register. Others present were Mayor W. A. Post, of this city; Mayor J. Barron Hope, of Hampton; Colonel C. M. Braxton, and Dr. C. Perkins, of Newport News.

The Council committee on Finance last night recommended the issue of \$10,000 in thirty-year 4 1/2 per cent. bonds, to be used for city sewerage, a new jail, and a central school building. They will be issued in denominations of \$50 each, and made redeemable in ten years.

Last night a fire broke out in the corporate limits, in East End, destroyed several out-houses and their contents. The loss is probably \$250.

A SAFE ROBBED.

The Thief Caught with a Marked Bill—A Good Luck Event.

PETERSBURG, VA., Feb. 5.—Special.—The state of Mr. Alex. Thompson, a plumber on Bollingwood street, was robbed to-day during the temporary absence of the bookkeeper, J. H. A. Young man named Benjamin Leis, who has been in Mr. Thompson's employment for a few days, was recently arrested on the charge of being the thief. On his person was found \$14.75. A ten-dollar bill, which was found on Leis's person was identified by the bookkeeper, J. H. A. Young man named Benjamin Leis, who has been in Mr. Thompson's employment for a few days, was recently arrested on the charge of being the thief. On his person was found \$14.75. A ten-dollar bill, which was found on Leis's person was identified by the bookkeeper, J. H. A. Young man named Benjamin Leis, who has been in Mr. Thompson's employment for a few days, was recently arrested on the charge of being the thief. On his person was found \$14.75. A ten-dollar bill, which was found on Leis's person was identified by the bookkeeper, J. H. A. Young man named Benjamin Leis, who has been in Mr. Thompson's employment for a few days, was recently arrested on the charge of being the thief. On his person was found \$14.75. A ten-dollar bill, which was found on Leis's person was identified by the bookkeeper, J. H. A. Young man named Benjamin Leis, who has been in Mr. Thompson's employment for a few days, was recently arrested on the charge of being the thief. On his person was found \$14.75. A ten-dollar bill, which was found on Leis's person was identified by the bookkeeper, J. H. A. Young man named Benjamin Leis, who has been in Mr. Thompson's employment for a few days, was recently arrested on the charge of being the thief. On his person was found \$14.75. A ten-dollar bill, which was found on Leis's person was identified by the bookkeeper, J. H. A. Young man named Benjamin Leis, who has been in Mr. Thompson's employment for a few days, was recently arrested on the charge of being the thief. On his person was found \$14.75. A ten-dollar bill, which was found on Leis's person was identified by the bookkeeper, J. H. A. Young man named Benjamin Leis, who has been in Mr. Thompson's employment for a few days, was recently arrested on the charge of being the thief. On his person was found \$14.75. A ten-dollar bill, which was found on Leis's person was identified by the bookkeeper, J. H. A. Young man named Benjamin Leis, who has been in Mr. Thompson's employment for a few days, was recently arrested on the charge of being the thief. On his person was found \$14.75. A ten-dollar bill, which was found on Leis's person was identified by the bookkeeper, J. H. A. Young man named Benjamin Leis, who has been in Mr. Thompson's employment for a few days, was recently arrested on the charge of being the thief. On his person was found \$14.75.
